Intro

DECOR FAN
FOR
EVERY HOME.

Catering to a wide variety of custom ventilation solutions suited for commercial, residential and industrial projects, Decor Fan SEA serves as a platform offering the widest variety of decorative fans for living sanctuaries. We provide a sweet spot between the functionality of a ceiling fan's ventilation effect, while complementing your individual decor characteristics.

Through strategic alliances with international organizations over our growth, we emphasize heavily on consistent research and development efforts, facilitating the implementation of timeless aesthetics of our décor fans which we pride upon.

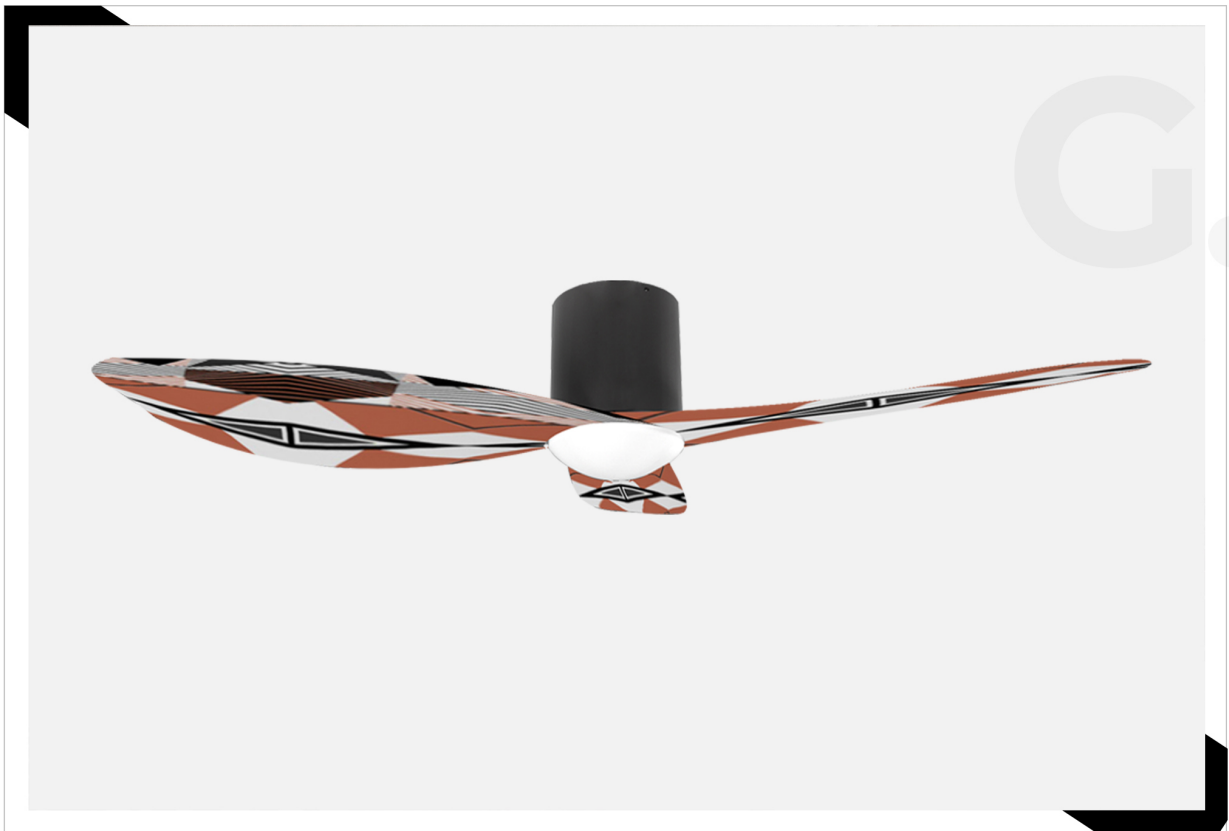

#As Seen On

D Ambre:

Belonging to the school of modernism, D Ambre is characterized by a focus on functionalism and simplicity. Using a blend of woods or alike furnishings, Scandinavian architecture represents a natural way of life, helping us to stay close to nature while remaining as a form of self-expression. Enjoy the gentle breeze at the comfort of your own home with the blades designed to provide the natural wind you would feel outdoors.

D Ambre

Renowned for its minimalist signature design cues, D Ambre blends seamlessly into the Scandinavian theme of your home. Add a touch of serenity to your living spaces in a variety of four timeless shades from naturally layered veneered tones.
